## **Education in the 21st Century: Shaping Future Leaders**

In the 21st century, education is rapidly evolving to meet the demands of a dynamic and interconnected world. At Clarus International School, we are embracing these changes by integrating technology, fostering critical thinking, and promoting creativity. Digital tools and online platforms enhance personalized learning, making education more accessible and engaging. Our curriculum emphasizes problem-solving and critical analysis, preparing students to tackle complex global challenges.

Creativity and innovation are nurtured through diverse projects and collaborative efforts, encouraging students to think outside the box. Additionally, we focus on developing global awareness and cultural competence, ensuring our students are well-rounded global citizens. Social and emotional learning is a key component, helping students build resilience, empathy, and strong interpersonal skills.

By prioritizing these elements, we aim to equip our students with the knowledge, skills, and mindset necessary to thrive in an ever-changing world and become the leaders of tomorrow.

Thank you dear parents for your continued support and involvement. Together, we are creating an environment where every student can thrive and achieve their best.

Warm regards,

The Academic Team  
Clarus International School

## KNOWLEDGE CORNER

LEGO is launching an amazing project that will use the bumps on the popular bricks to help teach the Braille method to blind and visually impaired children .  
 "With this project, we are bringing a playful and inclusive approach to learning Braille. I hope children, parents, caregivers, teachers and practitioners worldwide will be as excited as we are." said John Goodwin, CEO of the Lego Foundation.

The bricks, will be compatible with Lego's wider collection, this means that friends and family members can play along.

The final LEGO Braille Bricks kit is expected to come out in 2020 and will be distributed free of charge to select institutions through participating partner networks in the markets.
